Bond Projects Proposed Construction 2016

These are tentative dates! Please confer the city website for up to date info through press releases, or contact the engineering office as need be.

Hazel Dell Parkway Cherry Tree to 146th Street Widening **Summer 2016 (June – September)**
Project underway

126th Street reconstruction – Rangeline to Keystone **(August 1, 2016 – Spring 2017)**

Description: This is a road improvement project impacting the stretch of 126th street between Rangeline and Keystone, adding improved connectivity for both automobiles and pedestrian/bike traffic. This will be a partial closure: first the south side of 126th will be constructed allowing the north lane to continue with westbound traffic where eastbound traffic will be detoured to Main Street once the south lane is completed the process will switch diverting westbound traffic up to Main Street as the detour and allow eastbound traffic to use the improved road until the projected completion date of (TBD)

Specific dates:: (August 1, 2016 until Spring 2017)

Funding Source: bond project approved by the City Council of Carmel

116th Street and Gray Road Roundabout **Fall 2016 (September – November 2016)**

Description: This project will add a roundabout to the intersection of 116th and Gray road. It will increase vehicular and alternative (pedestrian/bike) transportation connectivity. This project will have a full closure for roughly 75 days due to major utilities, elevation changes, and the need to shift the project away from CCPR - Flowing Well Park which is protected from encroachment due to previously established federal grant / protection of this local asset. Detour will utilize Hazel Dell and Keystone to accommodate north south traffic and east west traffic will use 96th street.

Specific dates: (TBD)

Funding Source: bond project approved by the City Council of Carmel

Carmel Drive and Rangeline Road Roundabout **August 15, 2016 - November 18, 2016**

Description: The existing signalized intersection of Carmel Drive and Rangeline Road will be converted to a two lane roundabout. Pedestrian facilities, pavement, storm water system, lighting, and signage will be upgraded as part of the project.

Specific dates: August 15, 2016 to November 18, 2016

Funding Source: bond project approved by the City Council of Carmel

Pennsylvania Street and City Center Roundabout **Fall 2016 (September – November 2016)**

Project Description: The existing T-intersection will be fully reconstructed to a multi-lane roundabout. The reconstruction will include new full-depth pavement, curb and gutter, an enclosed storm water system, shared-use path and sidewalk with new curb ramps. The private drive for the hotel, on the west side of the roundabout, will be reconstructed. Along with the drive reconstruction, a portion of the hotel parking lot will be reconfigured to operate effectively with the new roundabout. Access to the business within the project limits will be maintained at all times. The intersection will be closed to thru traffic for the duration of construction, with thru traffic being detoured along Carmel Drive, Guilford Road, and 116th Street.

Specific dates: (TBD)

Funding Source: bond project approved by the City Council of Carmel

Carey Road and 136th Street Roundabout **Fall 2016 (September –November 2016)**

Project Description: The existing T-intersection will be fully reconstructed to a single lane roundabout. The reconstruction will include new full-depth pavement, curb and gutter, an enclosed storm water system, and a shared-use path with new curb ramps. Any private drives located within the limits of the

2016 Bond Projects
Department of Engineering

intersection reconstruction will be replaced. Access to residential properties within the project limits will be maintained at all times. The intersection will be closed to thru traffic for the duration of construction, with thru traffic being detoured along 146th Street and Gray Road.

Specific dates: (TBD)

Funding Source: bond project approved by the City Council of Carmel

Carey Road and Hawthorne Drive Roundabout Fall 2016 (September – November 2016)

Project Description: *The existing stop-controlled intersection will be fully reconstructed to a single lane roundabout. The roundabout construction will include but not be limited to new full depth pavement, concrete curb and gutter, new storm drainage features and use of existing drainage features, reconstruction of existing sidewalks within the project limits and new ADA compliant curb ramps. Permanent Right of Way will need to be acquired in the southeast and northeast quadrants of the roundabout. The intersection will be closed to through traffic during the construction of the roundabout. The detour route is tentatively planned to utilize 146th Street, Keystone Avenue and 136th Street (pending construction schedule of 136th and Carey Road construction schedule).*

Specific dates: (TBD)

Funding Source: bond project approved by the City Council of Carmel
