

BICYCLE LOOPS

The 5 separate loops are paths that make their way through neighborhoods and along various multi-use paths. The loops are geared primarily to casual riders. Each loop is marked along the way with color-coded signs.

You will also see color-coded circular arrows inlaid into the street that telling riders they are on the correct path. Traffic on the loops is intended to flow counter clockwise. Look for signs that indicate landmarks and points of interest along the path. Each loop offers its own unique riding experience by highlighting different areas within Carmel.
